

THE CAMPHILL MOVEMENT
INTERNATIONAL
ADDRESS LIST

2008

As at 7 January 2008

International Telephone Calls

To make an international telephone call dial:

- 1** the International Access Code (*found in your country's local telephone directory*)
- 2** the Country Code (*given below each country header in this directory*)
- 3** the Area Code (*omitting the initial zero*)
- 4** the Local Number.

Keeping the Directory up to date...

Entries in the Directory change continually as new houses or centres spring up, or numbers change. To ensure the entries are accurate *depends on the centres* providing up to date information, so please let us know of any changes — now!

Corrections are made as soon as they are received and the updated Directory is then replaced on the Camphill web site at: www.camphill.org.uk. The printed version appears less often, when requested by the Association of Camphill Communities UK.

Please send the information to:

Camphill Press, Botton Village, Danby, Whitby, YO21 2NJ UK
